

PANIC LAB

The Amoebas have escaped!

Panic Lab is a terrific “brain burning” challenge your customers will love. Dice are rolled to tell you which amoeba you are looking for and which lab they escaped from. That sounds easy, but they mutate and escape through the air vents. Can you match the correct amoeba before your opponents? Panic Lab is one of our best-selling games for people with cool heads, sharp eyes and fast hands.

HIGHLIGHTS:

- matching and deduction,
- attractive visual presentation,
- simultaneous play,
- accommodates large groups.

CONTENTS:

- 25 illustrated squares,
- 4 very special dice,
