

# PHOTOSHOOT

3... 2... 1... PHOTO!

In **Photoshoot**, two teams face off against each other for the title of Best Photographer. In turns, both teams must complete the most photograph objectives during a limited amount of time. In order to do this, all players of a team will, in turn, swap Character tiles without consulting each other. During the game, they must follow the conditions imposed by the celebrities under the inflexible eye of the opposite team. The team with the most points wins the game.

- 1 In turns, swap two character tiles until all tiles are placed according to the Photo Objective card.

- 2 Watch out for the effects of the characters you will need to apply! The opposite team is keeping an eye out!

- 3 Complete as many Photo objectives as possible and score the most points to win the game!
