

My dear child,
How I'd like you to visit me... I'm so bored and I
feel lonely in my house.

On the path, don't forget to follow the crystals to
avoid getting lost.
And if you find a nice plant, please bring it in your
basket to decorate the house.
I hope to see you soon!
Grandmother

P.S.: Once you've followed all my instructions,
I will prepare your favourite meal.

If you feel a danger,
curl up on yourself,
twice, to make yourself
smaller. Keep
the paw prints above,
then make the prints of
the animals you've met
disappear.
